

# Photography 5 Online

## Shooting Final

**Due Monday May 15 @ 9 pm**

I want you to shoot five photographs for your final.

The images are to represent the five elements that make up our physical world:

- Fire
- Water
- Earth
- Wind/Air
- Metal

Now this will test your creative and technical ability to capture these elements. There are plenty of examples on Google Images, but I want you to use your own imagination and come up with five unique representations. You can use Google for inspiration, but please do not copy an idea (Or an image. That will give an automatic F!!!!).

Think this through! You will be graded not only on your technical ability but on your creative interpretation. So don't blow this off!!! It's worth a lot of points -

### **When you upload to me:**

All in one folder labeled **your name \_Final**

Five (5) and five only images labeled **Fire, Wind, Earth, etc.**

Your PDF copy of your final written test. (Make sure you have included the right one that is marked up).

Make sure all your images are jpeg format and not too large.

There will be no grace on this test – Tuesday at 9 pm we are done! Nothing later than that will count!

**All materials must be uploaded to me by Monday May 15<sup>th</sup> @ 9 pm**
