Photograph 5 online – Uploading to the Server quiz.

Instructions – Download this PDF to your computer – Using Adobe Acrobat, use the highlighter function at the top of the menu bar to mark you answer. **Please use a yellow color to mark your answers** and mark the entire answer, not just the letter. Other colors make it hard to read.

Only one answer per question. Only one upload will be permitted on this test to the server. Once you upload, that will be your test. Server password and logon have been emailed to you.
   Both the logon and the password are case sensitive so make sure type them correctly.

1. What specific Internet Browser must you install first before you are ready to upload to my server? This is the only browser that will work with my set up
